

Estate Planning Services from a Christian Perspective

Who is Mennonite Trust?

Mennonite Trust is a Christian trust company that was formed in 1917 as a joint partnership between Mennonite Church Saskatchewan, the Saskatchewan Conference of Mennonite Brethren Churches and the Fellowship of Evangelical Bible Churches.

In the over 90 years since Mennonite Trust was started, MTL has helped countless Saskatchewan residents with estate planning, estate administration, and financial planning. Every year MTL helps an average of more than 700 people by offering estate planning and Will preparation.

MTL also offers assistance in financial planning services, investment services, and mortgage financing. We have helped Churches, members of the clergy and ordinary Saskatchewan residents with a variety of needs, from starting retirement savings accounts to financing a home or church building or renovation.

Free Seminars

One of the ways in which Mennonite Trust serves the community is by holding free seminars on Estate Planning. These seminars are available to any group interested in hosting them, and have in the past been held in Churches, community centres, private businesses, and senior-citizen housing complexes.

At the seminar Mennonite Trust will provide information on a number of Estate Planning topics, including Wills, Power of Attorneys, and Advanced Health-Care Directives. MTL will be available the following day for appointments, and those who cannot make it then are always welcome to schedule an appointment for a time that better suits them.

Mennonite Trust Seminars are valuable, entertaining, and free.

Estate Planning

One of Mennonite Trust's core services is to help people with estate planning. Every adult should plan for the time when they will need help managing their affairs. This includes a Will for settling affairs upon your death, but is a lot more than just that.

Estate planning can help make your passing easier on those you leave behind.

Estate planning includes a period during which a person may be alive but unable to handle their own affairs due to illness, accident, or travel. Without a Power of Attorney document spouses, children, and family may be unable to properly handle that person's affairs.

Estate planning also covers questions like medical decision-making, property decision-making, and how best to handle bequests to minor children or dependent adults. Proper estate planning minimizes the cost and hassle of disability and death, helping to ensure that the planner is a good steward of his or her God-given assets.

Why MTL
